Join NHS3

The new generation of the Nurses' Health Study

Please join us!

- Male or female nurses or nursing students
- Living in the US or Canada
- Born after January 1, 1965

Why join

Easy and convenient: Participation is entirely online and only takes about one hour per year, whenever and wherever is convenient.

Emphasis on inclusion: Our goal is to recruit a cohort that reflects the diversity of the nursing profession today.

A world-renowned nursing tradition: When you see a breakthrough from the Nurses' Health Studies making headlines, you'll know you helped make it happen.

**Nurses'
Health
Study** 3

NHS3 is recruiting 100,000 nurses to expand our research on cancer, chronic disease, reproductive issues, and the role of the workplace on nurses' health.

For more than 40 years, 238,000 participants in the Nurses' Health Studies have helped change what we know about health.

There's still much more to learn.

**Learn more, join, and
spread the word!**
